At a glance

As the accountable executive you answer for safety, compliance and the business. Avistrata gives you **one picture of the operation**: aircraft status, flights, the hangar, quality, safety and money, built from the records your people keep every day, with the controls that **stop unsafe work** and the evidence the FAA and your customers will ask for.

1 system
maintenance, flight ops, quality, safety, training and billing

Weekly
summary email and briefs for leadership

Enforced
airworthiness, qualifications and authorizations at the work

Published
prices and a 14-day free trial

1 Your job today

Leadership usually sees the operation through monthly reports assembled by hand from separate systems.

- Status comes from meetings, not the records.
- Risks surface in audits and incidents.
- Every department buys and supports its own tool.
- The cost of the tools and the re-typing between them is hidden.
- A new requirement (SMS, CMMC, digital signatures) means another tool.

2 A day with Avistrata

When	With Avistrata
Monday	The weekly summary: flights, aircraft status, work done, findings, safety indicators and money.
Any time	Ask MRO Insight: "how many aircraft are grounded and why?" "what did charter earn last month?"
Monthly	Workspace briefs for maintenance, operations, quality and programs, readable and shareable.
Yearly	Sign the safety policy and the management review; certificates and programs current.

3 What you get LEADERSHIP

Area	What it does for you
Weekly summary	One email across the organization.
Summary briefs	Readable briefs per workspace, with AI-written highlights.
MRO Insight	Questions in plain words, answered with links to the records.
Accountability	Policy, management review and risk acceptance signed.

Controls	Warn or block chosen per check across the operation.
Security	Two-step sign-in, single sign-on, roles, and every signature recorded.
One vendor	One system to buy, support and train on; published prices.
Growth	Programs, Part 21, FBO and schools on the same platform.

4 What it checks for you

The controls you are accountable for are applied at the work, every time.

Overrides are recorded with who and why, so you see where the rules were bent.

- **Unsafe or non-compliant work** is stopped or flagged, by rule.
- **Overrides** are recorded.
- **Deadlines** to the FAA and customers are tracked.
- **Access** is limited by role.

5 What you see

View	What it shows
Weekly summary	The organization at a glance.
Briefs	Per workspace.
MRO Insight	Answers on demand.
Power BI	Your own dashboards.

6 Working with the rest of the company

With	What is shared, without re-typing
Every department	One set of records instead of one per department.
The FAA	Evidence in one place.
Customers	Briefs, portal, signed estimates.
Investors and owners	Cost and performance from the records.
IT	One system to secure and support.

7 On the phone

- The summary and briefs on the phone.
- Approvals and alerts by push.
- MRO Insight on the phone.

8 Your first 30 days

Week	What happens
1	Organization, sites, people and roles; single sign-on.
2	Aircraft and records imported; departments trained.
3	Checks on warn; first weekly summary.
4	Checks on block where chosen; old tools retired.

Operators: $95, $195 or $325 per aircraft a month with unlimited users; repair stations: $55 or $75 per user a month; Enterprise from $150,000 a year. All plans are month to month with a 14-day free trial; Enterprise is an annual license.
